### Lighthouse Point Deer Isle, Maine

Stunning location and dramatic design come together in this unique oceanfront property. Lighthouse Point, with its distinctive lighthouse feature, was designed and built with great attention to detail. The home includes four bedrooms, a gourmet kitchen, and a great room with a soaring cathedral ceiling and massive Blue Hill granite fireplace. The lighthouse tower, with its 360-degree views of the ocean, islands and Camden Hills beyond, is truly unique. An additional 1.19± acre lot with an existing dock is also available.

Easily accessed by a bridge from the mainland, Deer Isle offers a quiet 'Down East island' atmosphere, without the limitations of island life. The nearby villages of Stonington and Deer Isle present a variety of options for cultural, shopping, recreational and dining facilities. Historically famous for granite quarrying, the Deer Isle/Stonington area is also a favorite among yachtsmen, for its pristine offshore islands known as Merchant's Row in Penobscot Bay.
